Put On a Paint That Stays Put

Hold on a minute, and say this to yourself before you put another cent into paint. Say that it costs just as much to put on a poor paint as a good one. Generally more. A poor paint doesn't stay put. Doesn't because you can't get out of anything what isn't in it. We have proven to our entire satisfaction that Lowe Brothers put stay-paint in every gallon of paint they make. Stay-paint is just another way of saying it stands weather's wear and tear. Drop in and we will show you a color card and tell you some paint facts, which, have a notion you have never been told.

LUCKY STRIKE
"IT'S TOASTED"

The automobile industry directly affects a greater number of what might be termed "basic" industries, than does any other manufacturing enterprise.

About 37,000,000 tons of iron and steel were produced in 1922. More than 1,750,000 tons were used in the construction of automobiles.

Annual imports of crude rubber into the United States are now 800,000,000 pounds per annum. Of this total, 81 per cent. or 648,000,000 pounds, was required this past year for automobile tires.

Production of plate glass in 1922 totaled about 65,000,000 square feet. Nearly one-third of this, or 21,500,000 square feet, was required for automobiles.

Gasoline and lubricating oil constitute in point of value, two-thirds of the output of petroleum refining. This past year 5,400,000,000 gallons of gasoline were produced. About 4,320,000,000 gallons, or 80 per cent. of this total were used in automobiles.

While over 330,000,000 gallons of lubricating oil were refined in 1922, only 575,000,000 gallons were required for domestic consumption. About 230,000,000 gallons, or over 40 per cent. of the domestic consumption were needed for the operation of automobiles.

About 75,000 bales of Egyptian type long staple cotton were grown in the United States this year past, while 400,000 bales were imported from Egypt. About 35 per cent. of this total, or 180,000 bales, were used in the manufacture of automobile tires.

This list of basic materials might be continued almost indefinitely, but enough has been said to indicate how intimately the welfare of many great industries is linked with the automotive market.

Any weakness in the market for automotive products will be immediately reflected in the business of all of these industries which depend wholly or in part on the automobile business for a market.

RESULTS THAT REMAIN

Are Appreciated by Bethel People.

Thousands who suffer from backache and kidney complaint have tried one remedy after another, finding only temporary benefit. This is discouraging, but there is one kidney medicine that has earned a reputation for lasting results and there is plenty of proof of its merit right here in Bethel.

Here is the testimony of one who used Doan's Kidney Pills years ago, and now makes her testimony even stronger.

Mrs. Walter E. Bartlett, Chapman St., Bethel, says: "I used Doan's Kidney Pills some time ago and the results I received were, in every way, satisfactory and were evidence of the merit of this remedy. I have felt no return of the complaint and naturally I place no little confidence in Doan's Kidney Pills." (Statement given June 12, 1916.)

On September 9, 1920, Mrs. Bartlett added: "Doan's Kidney Pills cured me of kidney trouble several years ago, and the cure has been permanent." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Bartlett had. Foster-Milburn Co., Mpls., Buffalo, N. Y.

Sleep by the Compass.

A European doctor, who recently died at the age of one hundred and nine, attributes his longevity to his method of sleeping. He says: "When you go to bed always take a compass with you and with the aid of the compass place your bed in such a position that your head points directly north and your feet due south. Sleep soundly in a horizontal position and you will live long."—Scientific American.
